Senate Bill 1 Eligibility Criteria and Conditions)	Docket No. 07-SB-1
for Incentives)	Guidelines for California's Solar
)	Electric Incentive Programs
)	Pursuant to Senate Bill 1

**ERRATUM TO THE COMMITTEE FINAL "GUIDELINES FOR CALIFORNIA'S SOLAR
ELECTRIC INCENTIVE PROGRAMS PURSUANT TO SENATE BILL 1"**

Publication Number: CEC-300-2007-012-CTF

The following erratum was adopted as part of the *Guidelines For California's Solar Electric Incentive Programs Pursuant To Senate Bill 1* at the Energy Commission's December 19, 2007, Business Meeting. The erratum provides staff clarification to the text of these *Guidelines* to avoid misinterpretation that the exception is a benchmark rating. The erratum is nonsubstantive in nature and makes a clarifying change.

***GUIDELINES FOR CALIFORNIA'S SOLAR ELECTRIC INCENTIVE PROGRAMS
PURSUANT TO SENATE BILL 1***

Chapter 5: Energy Efficiency

Page 26 of the unmarked version, fourth bullet, is revised as follows:

Energy Efficiency Exceptions for Existing Commercial Buildings

The specific energy efficiency requirements in these Guidelines for existing commercial buildings are not required for the following:

- agricultural and industrial facilities which are not covered by Portfolio Manager or the Energy Commission's equivalent benchmark rating are not required to be benchmarked;
- energy efficiency is not required to be addressed when solar energy systems are not serving electricity to a building;
- the energy audit, benchmarking and retro-commissioning are not required for buildings that have complied with Title 24 requirements for newly constructed buildings during the last 12 months prior to applying for the solar energy incentive; proof of Title 24 compliance shall be included with the solar energy system incentive application; and
- retro-commissioning is not required for existing commercial buildings that have a current ENERGY STAR label rating;

- benchmarking and retro-commissioning are encouraged but not required for PBI applicants.

The above noted erratum will be incorporated into the revised *Guidelines*, which the Energy Commission intends to publish and post on its website at [www.energy.ca.gov/sb1] within two weeks.
